Poisonous Mushrooms of Kyrgyzstan

On March 14, 2019 the State Committee of Information Technology and Communications of the Kyrgyz Republic puts into circulation a series of Kyrgyz Express Post postage stamps: “Poisonous Mushrooms of Kyrgyzstan”.

The new series of KEP postage stamps includes 4 miniatures depicting the following poisonous mushrooms: Ivory Funnel, Yellow-staining Mushroom, Sulfur Tuft and Deadly Dapperling. For this series, KEP also issues four postcards, which are used to realize four maximum cards.

Stamps description

No. 121. 50 KGS. Ivory Funnel (*Clitocybe dealbata*) is a poisonous fungus containing the highly toxic substance, muscarine, which can lead to severe forms of poisoning.

No. 122. 75 KGS. Yellow-staining Mushroom (*Agaricus xanthodermus*) is a poisonous species of mushroom belonging to the genus *Agaricus*.

No. 123. 100 KGS. Sulfur Tuft (*Hypholoma fasciculare*) is a poisonous fungus, distinguished by lamella (gills) with a sulfur-yellow colour, which distinguish it from edible mushrooms.

No. 124. 150 KGS. Deadly Dapperling (*Lepiota brunneoincarnata*) is one of the most dangerous poisonous mushrooms, containing nitriles and cyanides.
